Re: Light Pole Replacement for US Army Reserve Center

Mr. Magargee,

My name is Liam Vahi-Ferguson and I am a Project Manager for a company called Tidewater, Inc (Tidewater). Tidewater, a small business based out of Elkridge, MD, is a government contractor (DoD, DoS, DoT) that has projects all throughout the United States.

As you are well aware, Tidewater subcontracted Light Pole Systems to remove a broken (hit by a truck) parking lot light pole and replace it with an alike unit. The job was a complete success. Items that Tidewater took special note to: A) the job was diagnosed in a timely manner, B) materials were ordered as soon as possible and possible lead times were communicated with Tidewater; C) new pole was installed causing the least amount of disruption to building/facility occupants; and D) the job was tested at completion to ensure the new light pole worked as it should.

To Whom It May Concern, I, Liam Vahi-Ferguson, recommend Light Pole Systems for any of your lighting needs. They have proven to be really professional and have shown great quality in their work, while completing the task in a timely manner.

If you were to have any questions or concerns, please don't hesitate to contact me at liam.vahi-ferguson@tideh2o.net or, at 760 693 8016.

V/r,

Liam Vahi-Ferguson
Tidewater Inc.,
5835 Avenida Encinas, Suite 118-119
Carlsbad, CA 92008
